Workshop

## CIDW Critical Incident Debriefing

Yellow 1

\*\*Access to this workshop is limited to pre-registered delegates

### Learning objectives:

During this session, participants will learn how to defuse the team after a critical incident in daily clinical practice.

More specifically, participants will be:

- (1) introduced to a defusing model;
- (2) trained in using the model based on a video example of a critical situation in the simulated setting.

*Target audience: The workshop is intended for anaesthesiologists who are interested in this approach.*
