

Intensive Care Medicine

Learning track 09

Saturday, June 4, 2022

S

Symposium

09S1 Neurocritical care in traumatic brain injury

11:00 – 12:00

Chair: Federico Bilotta (Rome, Italy)

Neuromonitoring-guided cerebral blood flow optimisation

Speaker: Chiara Robba (Genova, Italy)

Management of intracranial hypertension in traumatic brain injury

Speaker: Nicola Latronico (Brescia, Italy)

Targeting autoregulation-guided cerebral perfusion pressure after traumatic brain injury

Speaker: Jeanette Tas (Maastricht, Netherlands)

Discussion

S

Symposium

09S2 Infections in critically ill patients: new insights and clinical management

16:30 – 17:30

Chair: Caterina Aurilio (Naples, Italy)

Secondary infections in Covid-19 patients

Speaker: Andrea Cortegiani (Palermo, Italy)

Covid-associated invasive pulmonary Aspergillosis: how to diagnose and treat?

Speaker: Cornelia Lass-Flörl (Innsbruck, Austria)

How to use new antibiotics against multidrug-resistant infections

Speaker: Maddalena Peghin (Udine, Italy)

Discussion

Sunday, June 5, 2022

D

Pro-Con Debate

09D1 Spontaneous breathing in Acute Respiratory Distress Syndrome (ARDS) is dangerous. Pro-con

09:30 – 10:30

Chair: Paolo Pelosi (Genoa, Italy)

Pro

Speaker: Davide Chiumello (Milan, Italy)

Con

Speaker: Christian Putensen (Bonn, Germany)

Discussion

P

Panel Discussion

09P1 Neuromonitoring in the critically ill

11:00 – 12:00

Chair: Claudia Spies (Berlin, Germany)

Rapid ultrasound for the brain

Speaker: Chiara Robba (Genova, Italy)

Automated pupillometry

Speaker: Pavlina Lenga (Heidelberg, Germany)

Invasive and non-invasive intracranial pressure monitoring

Speaker: Dana Baron Shahaf (Haifa, Israel)

Quantified electroencephalography

Speaker: Felix Lehmann (Bonn, Germany)

Discussion

CB

Case-Based Discussion

09CB1 Friday-night admission of a severely hypoxic patient

14:00 – 15:00

Chair: Andrea Cortegiani (Palermo, Italy)

Let me try non-invasive ventilation

Speaker: Andrea Cortegiani (Palermo, Italy)

Let me proceed with intubation

Speaker: Vincenzo Russotto (Monza, Italy)

Let me select the best invasive ventilation approach

Speaker: Michela Rauseo (Foggia, Italy)

Should we consider ECMO?

Speaker: Christian Putensen (Bonn, Germany)

Discussion

S

Symposium

09S3 Tracheal intubation in the critically ill patient: life-saving or life-threatening?

17:00 – 18:00

Chair: Andrea Cortegiani (Palermo, Italy)

Peri-intubation physiology optimisation - Focus on oxygenation

Speaker: Sheila Nainan Myatra (Mumbai, India)

Peri-intubation physiology optimisation - Focus on haemodynamics

Speaker: Vincenzo Russotto (Monza, Italy)

Focus on first attempt success without adverse events

Speaker: Jean Baptiste Lascarrou (Nantes, France)

Discussion

Monday, June 6, 2022

ME

Meet-the-Expert

09ME1 Cooling the inflammatory soup in sepsis

08:30 – 09:15

Chair: Despoina Koulenti (Athens, Greece)

Cooling the inflammatory soup in sepsis

Speaker: Mervyn Singer (London, United Kingdom)

Discussion

S

Symposium

09S4 The impact of Acute Kidney Injury (AKI) on critically ill patient outcome

09:30 – 10:30

Chair: Paolo Pelosi (Genoa, Italy)

Biomarkers in renal failure

Speaker: Kevin Roedl (Hamburg, Germany)

AKI in critically ill patients (with Covid-19) and outcome

Speaker: Elie Azoulay (Paris, France)

Prevention of acute renal failure in the ICU patient

Speaker: Silvia De Rosa (Vicenza, Italy)

Discussion

S

Symposium

09S5 Optimising antibiotic treatment

11:00 – 12:00

Chair: Christian Bode (Bonn, Germany)

Personalising antibiotic management using Therapeutic Drug Monitoring (TDM) in sepsis

Speaker: Malgorzata Mikaszewska-Sokolewicz (Warsaw, Poland)

Coping with multiresistant bacteria

Speaker: Despoina Kouleri (Athens, Greece)

Biomarker-driven monitoring of antibiotics

Speaker: Dylan de Lange (Utrecht, Netherlands)

Optimising antibiotic treatment during acute kidney injury

Speaker: Silvia De Rosa (Vincenza, Italy)

Discussion

S

Symposium

09S6 The importance of balance...

Session organised by the International Fluid Academy (IFA)

11:00 – 12:00

Chair: Christian Putensen (Bonn, Germany)

Chair: Manu Malbrain (Lovenjoel, Belgium)

The importance of fluid balance in perioperative and critical care

Speaker: Manu Malbrain (Lovenjoel, Belgium)

The importance of sodium balance in perioperative and critical care

Speaker: Thomas Langer (Milan, Italy)

Round table discussion on improved fluid stewardship

Speaker: Manu Malbrain (Lovenjoel, Belgium)

Speaker: Thomas Langer (Milan, Italy)

P

Panel Discussion

14:00 – 15:00

09P2 When do I need to start empiric antibiotic therapy? When should I stop it?

Chair: Christian Putensen (Bonn, Germany)

When do I need to start empiric antibiotic therapy? When should I stop it?

Speaker: Mervyn Singer (London, United Kingdom)

Speaker: Peter Picckers (Nijmegen, Netherlands)

Speaker: Christian Bode (Bonn, Germany)

Lecture

09L1 Hot Topics in Intensive Care Medicine - Last 12 months' top publications

15:30 – 16:15

Chair: Christian Putensen (Bonn, Germany)

Hot Topics in Intensive Care Medicine - Last 12 months' top publications

Speaker: Paolo Pelosi (Genoa, Italy)

Discussion
