

Regional Anaesthesia

Learning track 03

Saturday, June 4, 2022

D

Pro-Con Debate

03D1 Should we still perform Central Nerve Blocks (CNB) in children? Pro-con

11:00 – 12:00

Chair: Nadia Najafi (Brussels, Belgium)

Pro:

Speaker: Thierry Pirotte (Brussels, Belgium)

Con:

Speaker: Gabriella Iohom (Cork, Ireland)

Discussion

L

Lecture

03L1 Regional anaesthesia and anticoagulants - New guidelines

15:15 – 16:00

Chair: Christian von Heymann (Berlin, Germany)

Regional anaesthesia and anticoagulants - New guidelines

Speaker: Sibylle Kietzibl (Vienna, Austria)

Discussion

Sunday, June 5, 2022

S

Symposium

03S1 Recent updates in Regional Anaesthesia (RA)

09:30 – 10:30

Chair: Luc Sermeus (Brussels, Belgium)

Review of recent literature

Speaker: Alan Macfarlane (Glasgow, United Kingdom)

What is new?

Speaker: Eric Albrecht (Lausanne, Switzerland)

Importance in daily practice

Speaker: Tatiana Sidiropoulou (Athens, Greece)

Discussion

P

Panel Discussion

03P1 Fascial Plane Blocks (FPB): importance and pitfalls

11:00 – 12:00

Chair: Alan Macfarlane (Glasgow, United Kingdom)

Fascial plane blocks: importance and pitfalls

Speaker: Luc Sermeus (Brussels, Belgium)

Speaker: Barbara Versyck (Leuven, Belgium)

Speaker: Kariem El-Boghdadly (London, United Kingdom)

LT

Lightning Talk

03LT1 New insights in truncal blocks

17:00 – 18:00

Mona Momeni (Brussels, Belgium)

Pecs and serratus anterior blocks for breast surgery

Speaker: Barbara Versyck (Leuven, Belgium)

Paravertebral block for thoracic surgery

Speaker: Kariem El-Boghdadly (London, United Kingdom)

When should we be using the Erector Spinae Plane (ESP) block for rib fractures?

Speaker: Tatiana Sidiropoulou (Athens, Greece)

Fascial plane blocks in cardiac surgery

Speaker: Steve Coppens (Leuven, Belgium)

Transversus Abdominis Plane (TAP) block, Quadratus Lumborum Block (QLB) or epidural anaesthesia for abdominal surgery

Speaker: Eric Albrecht (Lausanne, Switzerland)

Discussion

Monday, June 6, 2022

S

Symposium

03S2 Regional Anaesthesia (RA) and outcome in specific situations

11:00 – 12:00

Chair: Luc Sermeus (Brussels, Belgium)

Do peripheral nerve blocks improve outcome in vascular surgery?

Speaker: Alan Macfarlane (Glasgow, United Kingdom)

What is the role of RA in Enhanced Recovery After surgery (ERAS)?

Speaker: Emmanuel Boselli (Bourgoin-Jallieu, France)

Phrenic nerve palsy and RA for shoulder surgery

Speaker: Kariem El-Boghdadly (London, United Kingdom)

Discussion
