Serious Games in Paediatric Anaesthesiology

**Access to Serious Games is limited to pre-registered delegates

Nothing is more serious than paediatric anaesthesia, but children are like little aliens. Different blood volumes, different drug dosages and different anatomy. By working together in a team you will learn what makes up these tiny creatures and how to handle any emergency that comes your way. Whether you're just starting out or are after a fun way to refresh your knowledge we will help you fit together the pieces of the puzzle and help you learn in a fun and exciting way.

Learning objectives:

During this unique and interactive Serious Game, participants will be able to:

1. Learn the most up-to-date version of perioperative fasting guidelines and how they relate to the paediatric population;
2. Perform preoperative assessment in paediatric patients with Obstructive Sleep Apnoea (OSA);
3. Apply opioid sparing anaesthesia in the paediatric population;
4. Calculate fluid assessment and haemorrhage management in paediatric patients;
5. Practise Crisis Resource Management (CRM) and strategies for working with multidisciplinary teams.

Target audience: Anyone interested in paediatric anaesthesiology (no prior gaming or simulation experience necessary).

09:30 – 11:30

05SG1 Serious Games in Paediatric Anaesthesiology

13:00 – 15:00

05SG2 Serious Games in Paediatric Anaesthesiology

Game Faculty

Facilitator: Ruth Shaylor (Tel Aviv, Israel)

Facilitator: Dana Karol (Tel Aviv, Israel)

Facilitator: Gaby Kaplan (Tel Aviv, Israel)

Facilitator: Kim Ekelund (Copenhagen, Denmark)

Facilitator: Gustavo Norte (Vila Real, Portugal)

Facilitator: Daniel Braunold (Haifa, Israel)
